Rethinking Higher Education

The instruction paradigm	The learning paradigm
Provide/deliver instruction	Produce learning
Transfer knowledge from faculty to students	Elicit learner discovery and construction of knowledge
Time held constant; learning varies	Learning held constant; time varies
Classes start/end at same time	Environment is ready when learner is
Covering material	Specified learning results
End of course assessment	Pre/during/post assessment
Degree equals accumulated credit hours	Degree equals demonstrated knowledge and skills

Any Questions?

THANK YOU!
